Subject: Indiana Department of Education Announces 2022-2023 Family Friendly Schools

More than 66 Indiana schools have been designated as 2022-2023 Family Friendly Schools by the Indiana Department of Education (IDOE). These schools – which span across the state, and include public and non-public schools – are demonstrating excellence in engaging families in their children's education.

Launched in 2015, the Family Friendly Schools designation focuses on addressing the academic, physical, emotional, and social needs of students, while providing the needed resources and fostering the active involvement of their families through schools and the community. The program recognizes and honors schools that welcome all families into the school community, communicate effectively, support student success, speak up for every child, share power and collaborate with the community.
