

President Lincoln Lilac Plant
Syringa Vulgaris

President Lincoln Blue Flowering Lilac. Blue Hill Country Garden. 18 July 2008.
<http://www.bluehillcountrygarden.com/pres_lincoln_lilac.html>

From Blue Hill Country Garden (online), Blue Hill, Maine:

The President Lincoln Lilac is a fast and large growing shrub. It has large heart-shaped leaves. The flowers are orchid in bud, opening to a beautiful Wedgwood blue. The fragrance is true Old Fashion with a spicy edge. Most Vulgaris Lilac bushes can reach a natural height of twelve to fifteen feet. A Lilac bush can be pruned to encourage strong new growth. The President Lincoln Lilac plant is listed as hardy in Zones 2-6 on the USDA cold hardiness map.
